This is a note of appreciation for the professional and swift manner in which my application for a Permanent Resident's Visa to Canada was expedited by your Office.

I had given some thought to the idea of immigrating to Canada in late 1996. Your web site was a comprehensive source of information at that time (I still access it today). All my initial queries to your Office were answered promptly and I had a clear idea of the monetary and legal obligations I would have to meet to gain my Visa from our first day of contact.

My application was submitted on March 28, 1997 and an interview waiver was granted 2 months later. After I took my medicals on July 31st. - I received my Visa on Sept. 28. I appreciate in particular your communications with the Visa Office regarding some inconsistent feedback I received about a few documents. Resolving this issue would have been rather stressful if I were to have been applying without any assistance. All in all, I am very impressed by your professionalism and dedication to my application process. I have recommended your services to many of my friends and hope that this letter will serve as a more visible endorsement of your services on the World Wide Web.

I am most impressed with your service. On the one hand, your accurate and comprehensive grasp of ongoing developments in Canadian Immigration laws and practice make a deep impression on us, on the other hand, the process was very well organized and done well. In addition, your service-fee is lowest so far I have realized from InterNet, Newspapers, etc. You and your staff are very efficient and friendly. I recommended your service to anyone who is looking for a legal representation.

I found your organization quite professional, efficient and prompt in providing service, even though I relied entirely on Internet to communicate with you. As a matter of fact, I came to know about your organization through Internet when I happened to visit your web site.

...let me stress two important points in this story:

1. You and your colleagues created the very first and very positive steps in my new Canadian experience.

2. I was impressed by your highly qualified way of doing business. What comes to my mind it's like a car and a car. If you take one you will keep feeling that you are riding all the road you may take. With another one soft and powerful you may even forget you are on the way. This to my mind distinguishes professional services. Sorry for that may be rough analogy. Hope I will be able to come someday to Montreal and shake your hand with thankfulness.
