Regarding with my opinion about your service, I must be honest and say that at the beginning I felt a little nervous with the idea to put in other hands my immigration process. But as the time went by I realize that I couldn't be in better hands. Along this year, there were moments when I needed an advise and you were there to support me. I'll be grateful for that all my life.

To Whom It May Concern:

Dear Reader,

My name is Radoy and I am from Bulgaria.

Reading this letter, perhaps you are considering a dilemma in your life whether you are ready to immigrate to Canada or any other country on the Globe. If you have such a question in your mind, I would strongly recommend you, based on my experience, to contact the Law Office of Colin R. Singer. There you will find the answers of all your questions. Later on in this letter, you will understand the importance of my recommendation to use a professional assistance upon going with your immigration matters. There are several aspects to consider before you take such an important decision in your life. Any case has its specifics and resolutions. Sometime a resolution could be so complicated you could have never imagined it before. Please, think for a moment, how many moves you have seen in your live related to real facts in our human life and you have perhaps thought that's impossible!!!

Believe me I have thought so many times in my live, because I have been always sure in my background and professional knowledge. But the reality sometime is different.

Commencing my familiarity with the details related and followed by my final decision to immigrate to Canada, I began a research with the Canadian immigration web site. At the beginning I thought, oh... it is easy. I am meeting all the criteria they needed. Certainly, I will qualify without any problems in the independent category. That's what I thought!!! But please, note that I was not the one who was going to take the final decision whether I qualify or not! This fact was the one bothering me all the time, before I even decided to collect all the papers necessary for my immigration matters.

Therefore, I took a decision at that time to use a solicitor's assistance before presenting my case to the Canadian immigration authorities. There were several choices I could've taken at that time. However, I choose the services of Colin R. Singer. And now afterwards, I am really happy with that decision I have taken. Many of you would perhaps ask, why? Why is that so important to use a lawyer? I can do it myself. I don't need a lawyer. Is this some kind of a commercial or what? No, this is not a commercial. I was also, so confident in my abilities that I was asking those kinds of questions also, before I faced the reality. Well, many of you would ask what kind of reality is this person talking about?!

As I mentioned above already, in regard to the assurance of myself that I will qualify under the independent category was going to become such a battle fore me, that at the end I almost lost my hope of any success. But thanks to Mr. Colin R. Singer and his excellent staff in office, I finally achieved my goal.

At the beginning in January 2000 when I signed a contract with Colin R. Singer everything went fluently. I must say now that Mr. Colin R. Singer prepared my case excellently, before presenting my case to the immigration office and saved me a lot of time and answers of lots of questions I asked myself before. I expected to complete the case in about 6 months. However, that didn't

happen. After almost a year, I was asked to attend an interview. No problem, I thought myself. Everything seemed perfectly. Here is the moment to remind you again, it is not important what do you think, but what would the person interviewing you thinks!?

The first interview went and a negative decision was taken. I realized that something went so wrong and there is some kind of misunderstanding. But a decision was rendered, and I had to recognize it, whether I like it or not. My self-confidence was steamed. Thanks to my lawyer Colin R. Singer and his professionalism, my case was reviewed again and I was scheduled another interview and a justice was reached. It took two years before a final and positive decision was rendered.

Here is the moment to mention that Mr. Singer did not charge me additionally for the complications of my case. He fulfilled our contract obligations to the last point of it and not the least important to the final settlement of my case.

Thanks also, to the Canadian Authorities that have fulfilled their obligations.

Afterwards, I can say once again that I made the right decision to use Colin R. Singer's services. And now finally, I can say more than ever, that I have selected to immigrate in a country where justice matters.

After you have read my story, I believe that you will make the right choice for you. Please, do not hesitate to contact the offices of Colin R. Singer. That's the place where you will find a professional services and assistance. Trust me, when we are talking about professionalism, it always matters.

Wishing you success and happiness in your life.

Sincerely,

Radoy Sinapov

Dear Mr. Singer,

Finally your representation has succeeded. After the death of my first attorney and failure to perform on the part of the second I had become rather doubtful about the outcome. Luckily I happened to contact you and you readily accepted me as your client and everything turned out

successful.

During this period although no fault of yours, the process was unduly delayed because of the inefficiency of the bureaucracy and I had become perhaps rather nagging, harassing. But everytime your firm was considerate and did not react negatively. Now as soon as I arrive on the shores of the new homeland, I will definitely contact you in respect of some other matters in terms of our initial settlement.

Thanks for everything and God bless you.

Sincerely,

(Achut G Honkan)

Colin Singer - Immigration Services

Dear Mr. Colin;

The following letter is in appreciation for your professional support regarding the immigration services provided to us during 1999, when the family immigrated into Canada. I would like to publicly recognise the high level of professionalism given by your company. Your promptness and knowledge on immigration matters were a key facilitator for the entire process, providing us with the support we needed to assertively undertake this change in lifestyle.

We feel confident in recommending your services to friends and family as we have already done during these past 3 years. We perceive that one of the main advantages of the immigration services you provide is based on the flexibility of the options you offer, including the different levels of support regarding work opportunities. This is very important for a family group such as ours. My husband and I both used your services related to job search and were successfully working within days of landing in Canada.

Finally, I also wanted to let you know that we have found Canada a great country to live in. Our family has adjusted very well and we enjoy a high level of involvement within the community. We believe this is possible only in Canada because of the rich ethnic diversity that exists here and the awareness that immigrants have a positive contribution to building the future of this country.

Best Regards,

Rosa Marquez

I would like to take this opportunity to express my sincere gratitude and appreciation for the professional service that the law offices of Colin R. Singer and CCIRC have provided. In fact this is what I had expected when I signed up with your firm and I must admit you have proved me right.

Some of my friends advised me to go through the whole process on my own. With all the changes in the rules and regulation that were announced in the middle of the process, I now look back and say to myself, I did the right thing by seeking a professional help from the get go. My whole process (from application submission to receipt of LP) took less than a year (9 days shy of a year). This was made possible because of all the hard work of your team and you. I must single out at least three people who responded to my queries via email and phone sometimes during weekend as well.

I still remember the days when I had called up your office around December 15th, when the first round of new rules and regulations were pre-published in the gazette. Ms. Christina Benetti, Ms. Mayada Jamil and Mr. Colin R. Singer who answered my calls and emails to put my mind at rest during those trying days.

I was very much impressed by the professional presentation of my case to the immigration authorities and would definitely recommend the law offices of Colin R. Singer to anyone wishing to immigrate to Canada. With all the new rules and regulations going into effect (June 28th, 2002), it makes sense to have experienced people working on your case, who can interpret the new laws effectively.

Thanks,

I would like to thank you and your team members for this entire process of Canadian Immigration. I would say I have been really lucky to find a law company like yours as from what I heard from other friends who also filed for Canadian Immigration, that they are still in process and are having a tough time with their lawyers espically in communicating.

Sitting in a different country needs effective communication and attention which your organization has been really good at. I did not once find delay or unprofessional answers from you.

Once again I would like to thank you for your help in making this happen. I would also be more than delighted to recommend you to any other friend or family person.

I am very glad that I finally got the PR VISA of Canada and write here the gratitude letter to you. When I decided to immigrate to Canada, I was very confused because there were many immigration agents in my country, and they requested very expensive fee for the translating documents and some errands. So, I decided to contact directly to the Canadian professional immigration lawyer. I searched a lot of immigration web sites and the sites of Canadian immigration attorneys. In the mean time, I got to know the fame of Mr. Singer and your web site. It was very reliable and the service fee was appropriate. Your site is very fast, well organized, and shows and tells many detailed things of immigration clearly. You, staffs were very kind and the answers to my dull questions were quick and clear. Frankly I worried a lot because my point was slightly low (1 –2 point) and my job category as a Chemical Engineer was ambiguous. But your recommendation and consideration was very helpful to overcome my hard situation. I know that I just finished the very first step and from now I have to overcome much more harsh situation in Canada. I appreciate again that you accompanied me on the road to the Canada. With your sincere help, I could finish my first step to Canada. Specially thank Benetti for taking charge of me.

Sincerely yours,all,
