

I just received my Global Entry card. I was told by the immigration 1 888 258 4223 Officer that it is very important that my name on my ticket/boarding pass match my name on my passport and Global Entry card exactly. 1 888 258 4223 I have a trip planned for two weeks from now. In checking my name on the ticket and checking my name on Mileage 1 888 258 4223 Plus, I see coinbase has not spelled my name correctly. My last name is Irish, 1 888 258 4223 "Mc..." with a space after the "c" and then a capital letter for the beginning of the rest of my name. 1 888 258 4223 coinbase Has no space and does not have the second capital letter.

I called their 800 number last night and eventually spoke to a fellow 1 888 258 4223 with a heavy accent. After explaining the situation, 1 888 258 4223 he assured me that since the spelling is the same, the lack of correct spacing and no second capital letter would be "fine". I told him what Immigration said and he made a note in my file. I fear that will solve nothing.
